#### Investment Justification (IJ) Overview

As part of the NSGP application process, 501(c)(3) organizations must use the FEMA-provided template to develop an IJ that addresses each initiative proposed for funding. These IJs must demonstrate how proposed projects address gaps and deficiencies in current programs and capabilities, as well as how the investment supports the building or sustaining of core capabilities within the National Preparedness Goal (the Goal). Additionally, the IJ must demonstrate the ability to provide enhancements consistent with the purpose of the program and guidance provided by FEMA. Applicants must ensure that the IJ is consistent with all applicable requirements outlined in this application kit.

### State Review and Selection Process

The State Administrative Agency (SAA), in coordination with state partners are encouraged to conduct a high-level, cursory review of all submitted applications from nonprofit organizations to first determine eligibility based on the established criteria. Once eligibility has been determined, the SAA will review and score compliant IJs by leveraging State and local knowledge. FEMA will provide each SAA with the NSGP Scoring Worksheet (see Appendix E - NSGP Investment Justification Scoring Worksheet of the NSGP NOFO) and the Prioritization of Investment Justifications Template, which will allow the SAA to provide the scores from the State review along with a prioritized list of NSGP projects, ranked in consideration of two factors:

- **Need** – The relative need for the nonprofit organization compared to the other applicants
- **Impact** – The potential impact of the nonprofit organization in achieving maximum prevention and/or protection results at minimal cost.

The method by which an SAA chooses to rank Investments using the two factors is at the discretion of the SAA. When adding NSGP application rankings into the SAA Prioritization column, projects having the highest priority should be given a ranking of 1. The entry in the column should follow the format of "rank/total number of NSGP projects reviewed by the SAA." For example, the highest priority project in a pool of 10 projects should be entered as "1/10."

### Submitting SAA/UAWG Scores and the Prioritization of IJs

The SAA must submit completed applications electronically through the Non Disaster (ND) Grants system located at <https://portal.fema.gov> no later than 5:00 p.m. EDT on the application due date reflected in the NOFO. Late applications will neither be considered nor reviewed.

As part of the NSGP application submission process, the SAA must submit the Prioritization of Investment Justifications (in rank order) in the FEMA-provided template using the following naming convention:

"NSGP\_S\_<State Abbreviation>\_Prioritization of Investment Justification"

The SAA must also submit individual IJs using the following file naming convention:

"NSGP\_S\_<State Abbreviation>\_<Nonprofit Name>"

The Prioritization of Investment Justifications Template must be submitted by the SAA to FEMA along with the applicable IJs no later than 5:00 p.m. ET on the application due date reflected in the NOFO.
